Tot Finder Home Program

This program is designed to be a community service outreach. The program is targeted for families with young children in the home. This program will be available to all residents within the first run area of the Lewisberry Community Fire Company. The following is how the program will be conducted at the resident's home.

The Lewisberry Community Fire Company will arrive with some apparatus and personnel to the residence at the time set up between the fire company and the resident. Upon arrival the fire apparatus and equipment will be shown to the family and any questions will be answered. After this we will move into the residence and go over basic home safety and fire prevention. Simple things such as knowing two safe ways out in case of a fire and a central meeting place will be gone over. If this is unclear or has not been discussed within the family, the fire company will give possible suggestions to the family. All smoke detectors and fire extinguishers will be checked by the fire company to make sure they are working properly. The tot finder decals will be installed and the procedure that the fire company follows on active fire searches will be explained. This will help make sure that the importance of the decals is understood and what to do and what not to do if the fire company needs to rescue you from your room. At the end of the program, any other questions will be answered. The fire company will leave some contact information for the fire company in case there might be any further questions or issues we could help with. We will also leave an evaluation form for the resident to fill out and send back to us. This feedback will be used to either fine tune or add to the program if needed.

This program is designed to take approximately 1 to 1.5 hours at the residence. Appointments will be set with the fire company by the resident calling the station and making arrangements with the fire chief. Appointments will be set between the hours of 6pm and 9pm Monday thru Friday and weekends from 11am until 6pm. This program is offered free of charge as a public service to our residents in an effort to improve public safety.
